Editorial 009

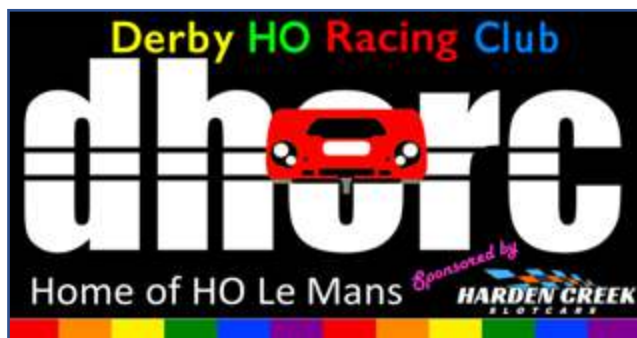

We have our first DHORC Carrera Digital Champ!

Congratulations to **Angus Smith** for becoming the inaugural DHORC Carrera Digital Champion after Round 27 of 33. With 14 wins he cannot now be caught with 6 Club Nights remaining. (See Page 5)

With 19 racers on Tuesday night we again ran four Groups, with each having three 15-minute races. We currently have 25 Carrera Digital Members and so had closed the books as the maximum we can have on a night is 24. However it looks like, realistically, we only have 23 regulars so with **Dan** and **Jessie-James (JJ) Hughes-Dowd** being very keen we will probably include them and then close the books again. They had a quick practice before racing started on Tuesday and then were kind enough to marshal a good part of the evening. And all on JJ's birthday! They are going round to Phil's next Tuesday for some Digital testing and to sort out some HO cars.

Also **Dave** and **Laura Edwards** celebrated their third wedding anniversary on Tuesday night, with Laura taking all three Group D wins and Dave two Group C wins. The sweetest one for Laura was Round 26 when she also beat Dave! Congrats both.

Talking of Group wins, Angus and I were discussing all things Digital on Friday over the phone, and he suggested we should tweak the Group points to make them fairer. After much debate we came up with the suggestion on Page 11, which we can discuss at the AGM, hope you can all make it. **Nick Sismey**

2. Angus becomes our inaugural Carrera Digital Champ

Congratulations to **Angus Smith** for becoming our inaugural DHORC Carrera Digital Champion. Angus has been instrumental in ensuring we have rules that are fair for all and undertook the role of Scrutineering from the off (with **Phil Rees** scrutineering Angus' car). He has been closely involved in keeping the costs down so throwing money at any problem is not the answer. It has lead to some incredibly close Group Races, and final results.

On top of the that Angus' technical skills, to be able to blue print any slot car (HO and Carrera Digital) and his driving skills, enabling him to get the absolute best out of any slot car, has led to him winning an unprecedented 14 Club Nights from 27 starts.

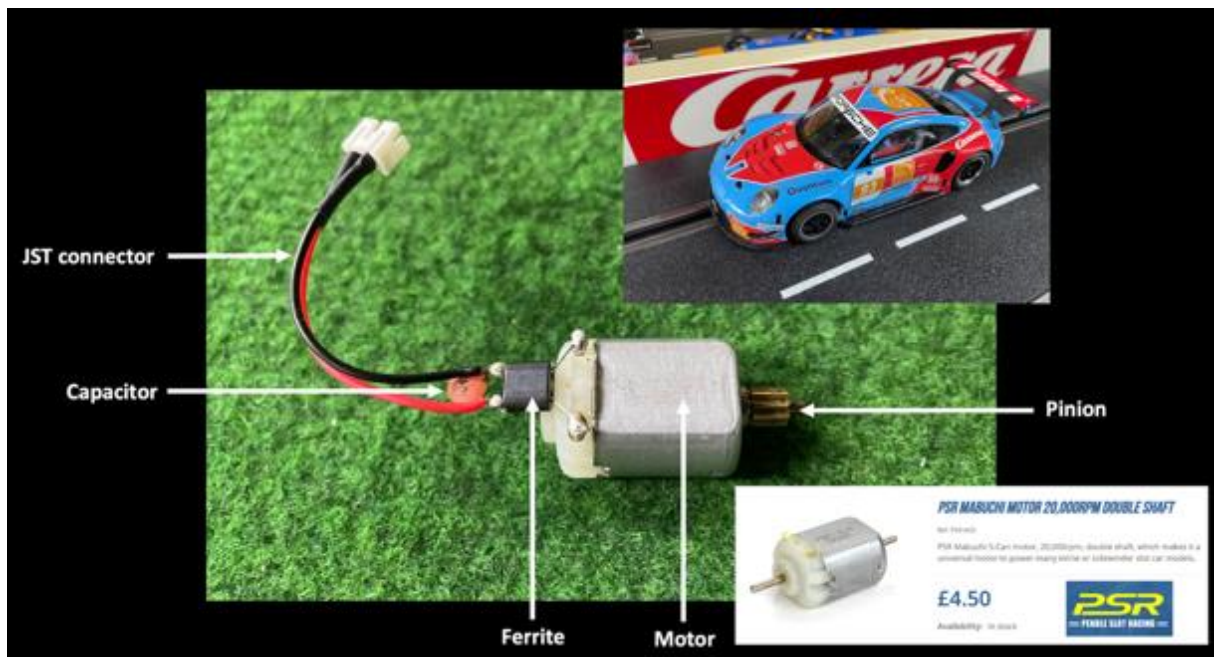

We still have a minimum of six Club Nights left in 2022, with five different winners this year, can anyone add to that list?

3. Pendle Slot Racing Mabuchi alternative cheap motor

As you will have seen via e-mail, WhatsApp and on Facebook **Phil Rees** has found a cheaper more available motor to replace the Carrera motor. It is the Pendle Slot Racing (PSR) Mabuchi S-Can double shaft motor, rated at 20,000rpm.

Following my back to back test a couple of weeks in Phil's man cave, where the new motor was 61/1000ths quicker, **Angus Smith** and **Lewis Blacker** did the same with their cars last week. They matched my time difference between motors. On top of that Phil ran a car with the new motor round Fuji on Tuesday night. It did seem slightly quicker down the straights, otherwise very similar to the Carrera. We will therefore introduce it from 2023 if bought off at the AGM on 15Nov22.

To make the PSR motor run in our cars it requires a JST connector, a capacitor (to ensure the motor doesn't affect the chip) and a ferrite. The pinion can be swapped from your original motor. The double shaft also needs removing at one end. Phil has all these parts and will have motors ready to run for £6.

4. AGM – 7pm – 15Nov22 – Table Tennis (Club Room)

Our Annual General Meeting is set for 7pm on Tuesday 15Nov22 in our normal Table Tennis Club Room. We will cover both HO and Carrera and normally it only takes a couple of hours. We basically review and agree last year's minutes, choose the 2023 Committee, agree the 2023 Calendar and circuits, and then discuss anything anyone wants to improve how we run DHORC for all. It is always a very good evening with lots of healthy debate. Hope you can make it.

5. Group Championship improvement suggestion

Angus Smith suggested we needed to improve the way the Group Championship works to give benefit to those who improve their placing in the Group at the end of a race. After much discussion we came up with the following proposed table. In short it means if you finish in your Group in a better place than you started you get extra points. The most points you can get is 11 if you start the race in sixth place in the Group and then win the Group i.e. 6 points for the win plus 5 points for the places you gain. To do a litmus test we ran the results from Tuesday night and compared them to the actual points scored. You can see that in the bottom chart. We can discuss at the AGM.

6. Race Groups for 22Nov22

The Race Groups for 22Nov22 are as follows if all of the usual racers are able to attend. We believe (we can discuss at the AGM) Ranking is the best way to formulate these. We could take average fastest laps but if someone hasn't raced at that circuit before we have to take a punt as to where to best put them. This way it matches everyone's best performances over the last 20 Club Nights. It does work, as for example, **Geoff Peach** and **Nick Sismey** swap places between Group B and Group A after Tuesday night.

With **Jono Johnson** unable and **Richard Hill** rarely able to race we have opened up Carrera Digital Membership by two more slots. It looks like they may well be filled by **Dan** and son **Jessie-James Hughes-Dowd** so then Membership will be closed again. That will effectively give us 25/26 Members available for 24 slots (see what I did there! 😊) on a Club Night. Invariably a couple of Members can't make it so we should be safe. Famous last words!

Notice two Competitors in Group A and Group C have the same Ranking score! To differentiate those we have taken the best result as the tie breaker. **Dean Garbett** has had a win whereas **Simon Goodlip** hasn't yet, and **Liam Smith** has had a fourth place to **Dave Edwards'** fifth.

FUJI SPEEDWAY

Thank you so much to **Macaully Dutson, Stuart Gray, John Lamb, Phil Rees** and **Liam Smith** for helping set up the all new Fuji Speedway on Tuesday – it turned out to be a great track.

Having 18 racers on Tuesday taking part in the test was fantastic to see, thanks all.

Congratulations to **Simon Goodlip** for setting the most laps in the 5-minute tests and to **Geoff Peach** for setting the fastest laps. The number of pit stops were much higher during the test to give folk plenty of practice with the long pit lane. There will be far less pit stops when we run the 15-minute Club Night races as fuel consumption will be reduced. Congrats also to Geoff for taking Pole Position for the first Club Night on 25Oct22 via the one lap shoot out.

Here are everyone's best scores on Tuesday and over the next few pages the overall scores and individual scores so everyone can see what they did with what car.

Congrats to Geoff Peach for setting the fastest lap in the crash and burn Qualifying

Lewis Blacker was the 11th racer to Qualify, based on reversed order of ranking. He took 6th overall in the one lap crash and burn shoot out as Martin Thorpe looks on. The latter was one of two to not record a time, both crashing on their Qualifying laps

Angus and Phil begin scrutineering

New HO Members Dan and Jessie-James (JJ) Hughes-Dowd tried out our Carrera Digital cars before the evening began on JJ's 12th Birthday! Happy Birthday JJ!

Angus takes 12th win of the year at new Fuji Speedway

Angus Smith may have not turned a lap at Fuji Speedway before Tuesday night, as he missed the test night, but that didn't stop him from taking a record 12th Carrera Digital race win. Having not attended the test night meant he also hadn't qualified, effectively leaving him 18th on the grid. However he started the evening top of Group A based on Ranking as agreed. He also became the first and only racer to record a lap time under nine seconds, so the lack of testing certainly didn't hurt.

In a round that saw no less than 11 Personal Bests (PBs) recorded between the 19 racers it was great to see so many continue to move up the tables. Phil Rees had set the fuel so that if any laps were completed in under 10 seconds fuel usage would increase by 30% for those laps, with fuel stops taking a second for every 10% of fuel pumped into the tanks.

From second on the grid **Simon Goodlip** was the closest to Angus at the flag, and even he was two laps behind the would be inaugural Champion. **Geoff Peach** took his first Pole Position at the end of the test night converting that to third at the end of the 15-minute race, equalling his best ever finish at CD10. Winning Group B also gave him maximum Group points.

With the evening's Race Groups shown on the left, Group D started off the night's proceedings with Simon Ranking, Jag Kalyan, Laura Edwards and Daniel Kalyan being the first to take to the new Fuji Speedway. Phil took charge of the SmartRace App with Dean Garbett taking over when Phil raced.

Dean Garbett failed to record a lap in Qualifying, with a crash ending his lap. He however made it three Group A racers in the top four with fourth place, just 0.2 laps behind Geoff. Fellow Group B racers **Phil Rees** and **Martin Thorpe** beat two Group A racers in Round 25, Phil 0.3 laps behind Dean with Martin another 1.3 laps behind as they finished well above their Ranking position.

Nick Sismey and **Steve White** closed out the Group A involvement in the first round of the night as they dropped three and five places from their grid slots respectively with 7th and 8th.

Dave Edwards was the next racer on the grid and the next racer to bring his car home in 9th. His 5th on the grid was his best to date, three places better than his previous best of 8th on 18Jan22. He also took his first career Group win taking first in Group C. **Lee Pateman** also missed the test night so started Round 25 from 18th however he rounded out the Top Ten as the flag dropped, a lap behind Dave.

Laura Edwards was very pleased with her Group D win to match hubby Dave, she also beat all of the remaining racers in Group C in the process, effectively moving up from a Rank position of 17th on the night to 11th overall. This was her best ever finishing spot, one better than her previous PB on 18Jan22. Her 8th on the grid was also three better than her 18Jan22 PB.

Tom Gray headed the next four Group C racers in 12th, with uncle, **Richard Booth**, 0.6 laps behind him and dad, **Stuart Gray** another 0.4 laps back. One lap covering a whole family! Of these, Stuart was the only one to set a PB, with 10th on the grid a one place improvement from 12Apr22. Our fifth and final Group C racer was **Macaully Dutson** who was only 1.3 laps from beating all three above him, so close is this Group.

Daniel Kalyan lost out to Group D winner Laura by exactly four laps but kept dad **Jag Kalyan** and Jag's friend **Simon Rankin** at bay by 4.1 and 5.7 laps respectively, however both Jag and Simon recorded some new PBs; Jag two, Simon all three! Jag's two were Qualifying where his 9th was four places better than his 16Aug22 grid slot and his 14th in fastest laps was two better than his August PB. In only his second evening Simon improved his grid slot by seven, with 13th, finishing spot by two, with 18th, and fastest lap placing of 17th a three place gain!

Poor ole **Lewis Blacker** has now failed twice to make the most of his best ever grid slot. In HO when in 5th, he had to leave before the Finals, and then on Tuesday in 6th (previous best 7th on 15Feb22) he had a wheel come off the back of his Ferrari leaving him in 19th overall! The only good news was that this was the only car failure we had all night! That didn't help Lewis though!

Group C above, from left to right, Macaully, Stuart Gray, Tom Gray, Richard Booth and Dave Edwards

Group B, from left to right, Lewis Blacker, Phil, Martin Thorpe, Lee Pateman and Geoff

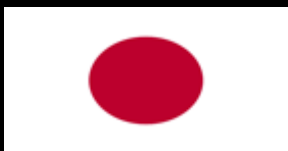

Lewis suffered the only car failure of the night when one of his rear wheels fell off

Angus nears inaugural Championship with 13th win

Angus Smith held off matching Porsche 911 RSR #93 GTs to take his 13th victory of the year as he nears to winning the inaugural DHORC Carrera Digital 132 Championship. Scoring 0.1 laps less than the previous round, he was exactly one lap ahead of **Dean Garbett** who became only the second racer to surpass 80 laps at the Fuji Speedway. Angus' record 18th Pole Position was the first and only lap under nine seconds, based on his Round 25 fastest lap. Dean's second place grid slot was also based on his Round 25 lap, beating his test night qualifying time.

Phil Rees moved up three places from his grid slot and no less than six places from his Group slot to take third overall here, finishing just 0.9 laps down on Dean. This was his best finish since taking his second win in Round 14 and his fifth time on the podium.

Steve and Lewis marshalling the fast 100R

Thanks to Dan and JJ for staying on to marshal for most of the night

Lewis Blacker stormed back from 19th and last place in Round 25, his worse finish by some five places, to an excellent fourth overall in Round 26. This was his fourth, fourth place finish of his career, which he said was down to the driver coaching we gave him in Phil's man cave last week! **Geoff Peach** scored exactly the same number of laps as he had done in the previous round but with folk improving he dropped from third to fifth overall, but with a quicker lap time!

Simon Goodlip and **Nick Sismey** shared sixth place on 79.0 laps while **Steve White** and **Lee Pateman** closed out Group A and Group B racers by both taking ninth with 78.6 laps! **Martin Thorpe** very nearly joined the two Group A drivers in sixth but for a 0.1 lap deficit to split the two shared results, with eighth. Talk about close racing, third down to ninth in Round 26 was covered by just a lap. With all those pit stops, lane change decisions, differing cars and differing driving styles, seven drivers being within a lap of each other – incredible!

Laura Edwards again won Group D and took 11th overall again, beating all in both Group D and Group C, but more importantly hubby **Dave Edwards** by four places and 6.1 laps! **Jag Kalyan** was the only racer to set a Personal Best in Round 26 and that was 12th overall, beating his previous best of 14th at the last evening.

Tom Gray took his second career Group win by beating **Richard Booth** to first place in the 'C' by 0.9 laps. In fact all of Group C were clumped together, consecutively, with Dave in the middle of the pack ahead of **Macaully Dutson** and **Stuart Gray**. Tom had his brakes tweaked to full on for this run, which he very much liked!

Simon Rankin again took 18th overall while **Daniel Kaylan** had a quick visit to 19th after 16th in the previous round.

Dean was the last to arrive, all the way from Sheffield, as Angus scrutineers his car

Race Report

Round 27

Fuji

25th October 2022

Lee had his best run in Round 27, taking second

Angus becomes our inaugural Carrera Digital Champion

Angus Smith became our inaugural Carrera Digital Champion after the conclusion of Round 27 and his record 14th win of the year. He obliterated his own Race Lap record by 3.5 laps leaving it at 85.1 laps as well as reducing the fastest lap at the circuit by 0.125 seconds down to 8.553 seconds. All in all Angus has dominated this year from Round 10 when he took his first win. Since then he has taken 13 more wins and four second places. We did think Dean Garbett was going to be top dog in 2022 having taken seven of the first ten races but then Angus came into his own. However Dean will easily secure second place. With 23 wins out of 27 Club Nights between them we all have so much to learn from these two.

Lee Pateman, five time DHORC HO Champion, took a well deserved second place, equalling his best result in Round 4, and winning Group B. There were some comments made however that others (me included) were helping Lee by calling out when he should pit, which was unfair to the other racers. This was agreed and a ruling made that only Race Control is allowed to call out requirements to pit in the future. Just 0.1 laps behind Lee was **Simon Goodlip**, whose results on Tuesday night move him up from fourth to second equal in the Ranking charts with Dean!

Martin Thorpe had his best run of the night here taking fourth, his second such result in four races, one behind his PB of third in Round 15. He shared fourth with **Lewis Blacker**, who mirrored his Round 26 placing but with 1.3 more laps. That would have put him second in the previous round. **Phil Rees** made it four Group B racers in the top six, just 0.4 laps in arrears while **Dean Garbett** was the fourth racer to be starting his 81st lap when the flag dropped, leaving him in seventh.

Steve White wasn't quite on his game this week, after taking his maiden victory at the previous evening, but there were reasons for this. I'm quite sure he will be challenging for the top spot again in November. In eighth he was a lap behind co Group A racers Dean, and 0.9 laps ahead of **Nick Sismey**. **Geoff Peach** rounded out the top ten this time. Although he dropped from third, to fifth to tenth during the night, Geoff's results and times took him from Group B to Group A in the Rankings, where he now presides in 5th rather than 7th. Nick goes the other way and will be in Group B at the next evening!

The battle of the Edwards' family continued into Round 27 with both **Dave Edwards** and **Laura Edwards** winning their Groups again, Dave the C for the second time, Laura the D for the third time to take maximum points on the night. This time 1.5 laps separated the two so Dave took the evening two to one. Both improved on their Ranking positions after the three rounds on Tuesday night with Dave moving up from 15th to sharing 14th with the absent Liam Smith, while Laura moved up from 23rd to 22nd. Both thoroughly enjoyed their evening, what a way to celebrate your third wedding anniversary!

Richard Booth was out on his own in his family competition this time in 13th, four places higher than **Stuart Gray** in 17th and five in front of **Tom Gray** in 18th. However I'm sure they will be brought closer together again at the next evening.

Jag Kalyan took three laps out of son **Daniel Kaylan** as they took home 14th and 16th respectively, finishing second and third in Group D. **Macaully Dutson** split the two, 1.8 laps behind Jag and 1.2 ahead of Daniel. **Simon Rankin** dropped to the foot of the table for the first time on the night but continues to learn his craft. Having only run in six rounds to date he is some 21 rounds behind the most experienced runners, time will help his cause tremendously.

Happy 3rd Wedding Anniversary Dave and Laura – thank you for the cakes!

Rules & Regulations

Issue 2 – 25Aug22

1.0 Club Night

Three evenings run on the same circuit, four circuits during the year.

1.1 Qualifying Round (Club Night) 1 at a new circuit - One flying lap at the Test Night preceding the first Club Night at a track. Those who miss Qualifying get an NT (No Time) and go to the foot of the table. However Groups for the three Rounds on the first evening on a new circuit are set based on Ranking.

Round 2 – Best lap from either Qualifying or Round 1.

Round 3 – Best lap from either Round 1 or Round 2

Round 4 (Different night) – Best lap from either Round 2 or Round 3, which also sets the Groups for the three Rounds on that night.

1.2 Race

15 minutes with 6 cars per race, with a minimum of two races for all competitors on the night (Depending on the number of competitors) Anyone can win overall from any Group, the winner recording the most laps plus tenths. Competitors on the same lap and tenth will get the same points.

Note: If a competitor arrives after the first Round of races have begun, they will have to wait for the Round to finish if there is no gap in the remaining Groups.

1.3 Points

Points will be awarded down to 24th place for each Round as shown below with additional points awarded for the top five Fastest Laps. 65% of the Rounds run will count towards to the Championship so if a racer competes in all Rounds their best 65% of points will count.

There will also be a Championship based on Group Points with the same points awarded to A, B, C and D Groups, six down to one. All points to count.

2.0 Cars

Carrera GT2, GT3 and GTE Racing Cars

- 2.1 Bodies** No modification or floating body screws (latter to be reviewed at 2022 AGM)
- 2.2 Lights** Must be working. Older Evolution cars do not contain lights as standard so chipped lights would need to be fitted.
- 2.3 Aerials/Mirrors** Can be removed
- 2.4 Rear Wings** Must be fitted at the beginning of the meeting. If they break off and can't be refitted, then the uprights must be replaced with rubber and fitted for the next meeting.
- 2.5 Chassis** No modifications
- 2.6 Axles**
- 2.6.1 Front** Either standard Carrera or complete axle supplied by DHORC.
- 2.6.2 Rear** Either standard Carrera or the following Slot.it Rear Axle Kit Pt No KK07C - 28t Inline Crown with 17.3x9.75mm hubs.

As some cars require different size hubs it was agreed that the following parts, to make up the rear axle, could be bought separately if need be: -

Aluminium Hubs 17.3x9.75x1.5	W1730975A
Crown Gear 28Tooth Inline	GI28-Bz
Bronze Bearings x2	PA-68
Axle 54mm x1	PA01-54
Wheel Hub Spacers 1mm x 2	PA-51
Alternative thinner Hubs 17.3x8.2x1.5	W17308215A

- 2.7 Front Magnet** Must be removed
- 2.8 Tyres** Rear, standard or supplied by DHORC. Front, standard and must touch the track and rotate when the car is running. Both can be reprofiled.
- 2.9 Minimum Height** A minimum height between the base of the rear magnet holder and the provided Technical Plate agreed at **1mm**. This is because the rear magnet holders on different cars are closer to the track, giving better road holding. We want all cars to have the same level of road holding, so we can make all cars competitive.

3.0 Driving & Racing Standards (Based on The Digital Slot Car Association Rules)

- 3.1. Any car on the circuit must be compliant with the GT rules.
- 3.2. Any indiscretion against stated regulations will be punishable by penalty (to be agreed).
- 3.3. When lapping a slower car, it is the responsibility of the faster car to change lanes and perform an overtake. Lapped cars should remain in their current lane until the faster car has passed.
 - 3.3.1. Intentionally blocking of a faster car when lapping is illegal
 - 3.3.2. Intentionally blocking a car fighting for position on the same lap is allowed
- 3.4. Contact from cars racing on the same lane, in proximity, is to be expected. Intentional or excessive contact is not allowed. Penalties (to be agreed) will be issued in the following circumstances: -
 - 3.4.1. Intentional or excessive contact with another car
 - 3.4.2. De-slotting another car by driving into the back of it
 - 3.4.3. Intentionally stopping on the circuit
 - 3.4.4. Excessive blocking by changing lanes when being lapped
- 3.5. Illegal contact may be reported by any participant of the meeting
- 3.6. Cars may be requested to pit for attention under the following circumstances: -
 - 3.6.1. Any functional or mechanical part of the car has become completely detached from the car
 - 3.6.2. A wing or spoiler becomes broken, completely detached from the body, or it is clear to the official at race control that when viewing the car from their normal position, that it is damaged
 - 3.6.3. The required number of headlights/taillights are not working
 - 3.6.4. A car is otherwise causing a hazard that may damage the circuit or other cars on the circuit
- 3.7. If any session is paused (red flagged), the following restrictions apply: -
 - 3.7.1. Cars must not be removed from the track, where they have come to stop
 - 3.7.2. Any car in the pit at the time of the red flag must have no further work completed on it until the session is resumed
 - 3.7.3. Drivers may leave their station only under the direction of race control
- 3.8. During Parc Ferme conditions, cars may only be worked on under the supervision of an official
- 3.9. Slow or malfunctioning cars should move to the inside lane (or lane nearest to the pit) and pit as soon as possible. Race control should be notified that there is a slow car on circuit so other drivers may be warned

Circuit History

Fuji Speedway (富士スピードウェイ, Fuji Supīdowei) is a motorsport racetrack standing in the foothills of Mount Fuji, in Oyama, Suntō District, Shizuoka Prefecture, Japan. It was built in the early 1960s. In the 1980s, Fuji Speedway was used for the FIA World Sportscar Championship and national racing. Originally managed by Mitsubishi Estate Co., Fuji Speedway was acquired by Toyota Motor Corporation in 2000. The circuit hosted the Formula One Japanese Grand Prix in 2007 after an absence of nearly 30 years, replacing the Suzuka Circuit owned by Honda. After Fuji Speedway hosted the 2008 race, the Japanese Grand Prix returned to Suzuka for races from 2009 onward. The Super GT Fuji 500 km race is held at the racetrack on Golden Week.

Fuji Speedway has one of the longest straights in motorsport tracks, at 1.475 km (0.917 mi) in length. The circuit has an FIA Grade 1 license.
